

## DVD IMB Specification

Europe

DVD

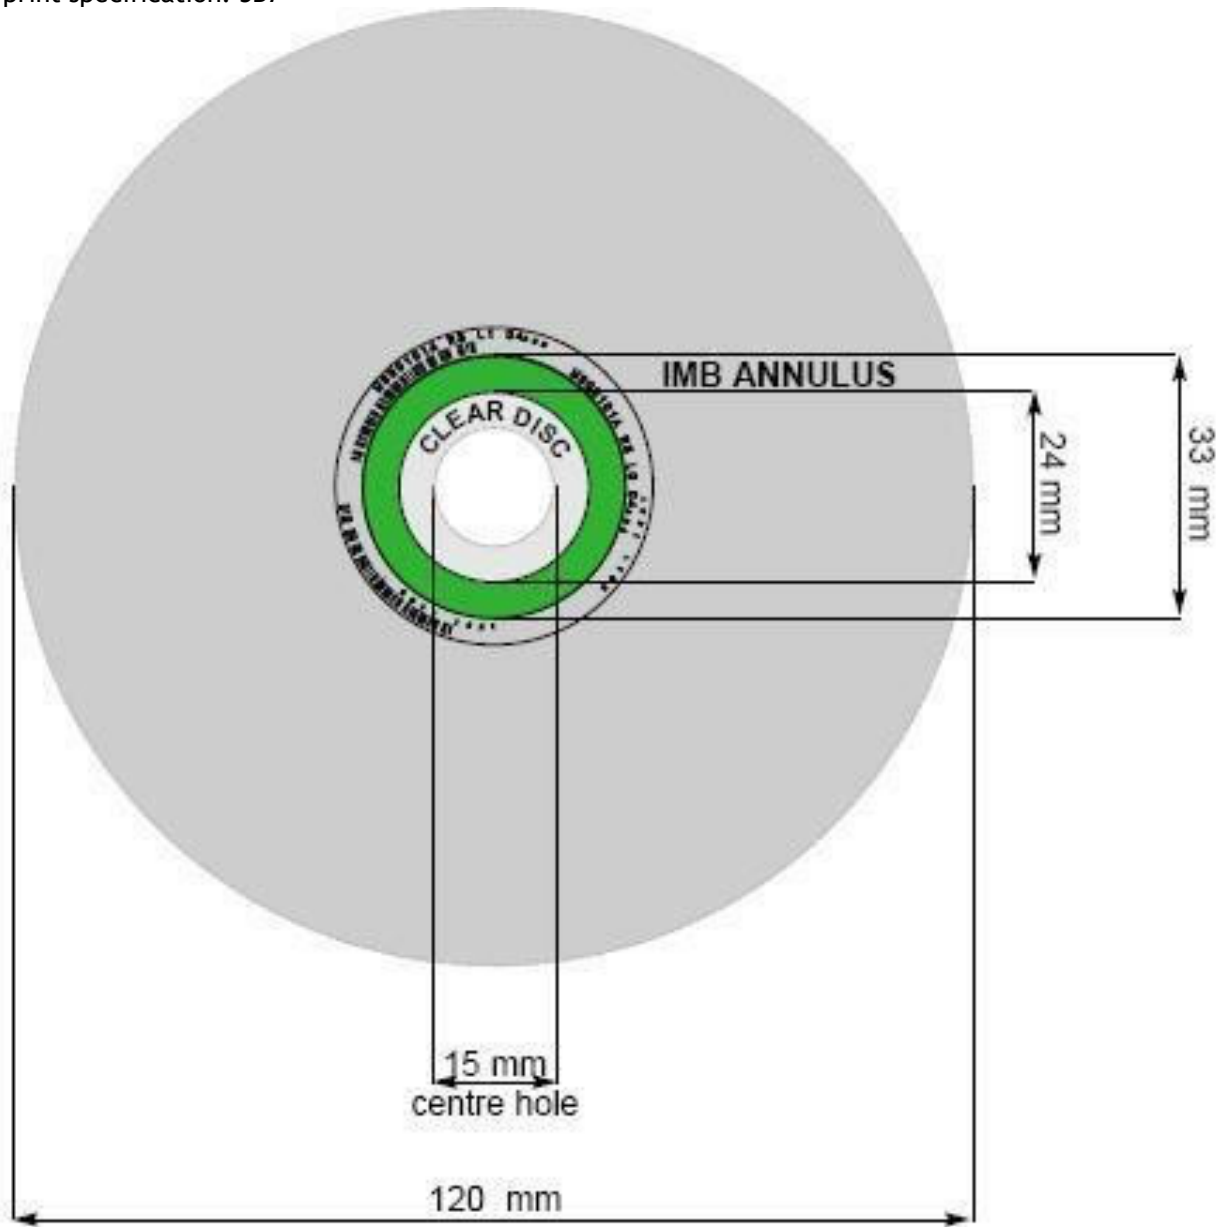

EDS006

Issue 3

October 2022

The green area on the following diagram is the area used to carry an “animated” image (e.g. for Microsoft XBOX) as an Inner Mirror Band hologram for DVD. The IMB will be visible from both sides of a printed DVD and always right reading from the printed side. However, for DVD 5 the IMB is only visible from the printed side.

Label print specification: SB7

Inner Diameter: 34mm  
Outer Diameter: 116mm
