BD Sticker Placement Grid

NOTE: F = Front

B = Back

1. Load 8-1/2 x 11-inch transparency film recommended for your printer.
2. Scroll to the page to be printed. Go to the file menu and select the Print option.
3. When the print dialog window appears, select the Current Page option and unselect the fit to Page option. Press the OK button.
4. The scale of the grid may vary depending on the printer. You may be able to manually adjust the print scale (Adobe Acrobat 6.0) by selecting the Properties button and then selecting the Manual Scaling option when the printer properties dialog window appears. Verify dimensions of the grid as follows:

BACK PANEL

BD Header Bar – No Wrap in this area			
B1	B2	B3	B4
B5	B6	B7	B8
B9	B10	B11	B12
B13	B14	B15	B16
B17	B18	B19	B20
B21	B22	B23	B24
B25	B26	B27	B28
BD Footer Bar (curved case) – No Wrap in this area			

6.73" (171mm)

5.3" (135mm)

FRONT PANEL

BD Header Bar – No Wrap in this area			
F1	F2	F3	F4
F5	F6	F7	F8
F9	F10	F11	F12
F13	F14	F15	F16
F17	F18	F19	F20
F21	F22	F23	F24
F25	F26	F27	F28
BD Footer Bar (curved case) – No Wrap in this area			

6.73" (171mm)

5.3" (135mm)

- NOTE: The dimensions shown above are for sticker placement purposes only and should not be used for raw material specifications.

5. Contact Customer Service if dimensions vary by more than 0.125 inch.
6. Indicate the sticker location by specifying the appropriate square(s).
7. BD Cases have a top and bottom section which is not covered with film, i.e. the title sheet does not cover the full case as it does on standard DVD. These areas with no artwork are shown shaded in the image above and are within grids 1-4 on the top and grids 25-28 on the bottom.
   Example: A sticker placed in the center of box B1 would be half on top of the header bar and approximately half over the wrap.
